Abstract (en)
[origin: EP1405800A1] A water-soluble capsule (1) has base wall (6) portion and clear water-soluble film comprising colored and non-colored portions. The colored portion has large area in relation to that of the non-colored portion such that the non-colored portion and fluid appears colored. An independent claim is also included for a process for making the water-soluble capsule comprising forming colored and non-colored films to produce an open package having a recess adapted to receive the composition (2), placing in the capsule the visually clear fluid, and sealing the capsule.
