Abstract (en)
[origin: EP1405809A1] The stacker for printed sheets (4) comprises a feeder which supplies them in overlapping formation (3) at right angles to a base plate, where they are stacked between a first (9) and a second (8) support plate. When the stack is complete a third plate (6) is raised and a new stack begun against this, while the original stack is moved to a strapper (20).
