Abstract (en)

[origin: EP1408150A1] An opening system includes a door attachable to a support structure in a manner that is slidable between open and closed positions for opening and closing a loading aperture (3) of the washing machine. The contact surface (6) of the door and a rim are parallel and inclined relative to the sliding direction (S) of the door. DEPENDENT CLAIMS are also included for the following: (a) Washing and drying machine; and (b) Cooking oven.
