Abstract (en)
[origin: WO02092291A1] The invention relates to a hand machine tool, in particular a drilling and/or chisel hammer, comprising a machine housing (12), a tool guide element (16; 54), a hammer tube (14; 52) and an arrester device (32), fixed to the housing in an axial direction, for a percussion device (24), which may be driven by means of a drive piston (22) and which is engaged with a tool (20), arranged in the tool guide element (16; 54). According to the invention, the tool guide element (16; 54) is embodied such as to be axially displaceable relative to the machine housing (12).
