Abstract (en)

[origin: WO03015667A1] An intra scleral implant (10) and method of implantation for use in the treatment of intraocular pressure and presbyopia. The implant features a body portion (46) and protrusions (48) from the body portion to anchor the device in a cavity (19) formed in the scleral wall (16) of the eye(12). Optionally a drug delivery function is provided to allow long term communication of drugs to tissue surrounding the implant.
