Abstract (en)
[origin: WO03018900A1] An ironing board comprising an ironing surface (2) and a bridge-shaped support frame (4) including a first and a second leg (5a, 5b) with concavities (C) directed in the same direction for increasing the stability of the ironing board (1) is described. Wheels (31) are provided on the bottom end (5a", 5b") of the rear leg (5b) for facilitating displacement of the ironing board (1) when said board is arranged in a working position. A support (50) which can be swung over is mounted on the rear end (3b) of the board (1).
