Abstract (en)

[origin: EP1424166A1] A tool-combining rod includes a rod member (5), an engaging head member (6) and an engage member (7). The rod member (5) has a rear non-circular portion (55) for combining with a driving tool, and a front combining hollow (50) for combining with the engaging head member (6) and the engage member (7). The engage member (7) has a central hole (75) for the engaging head member (6) to fit through therein and an elastic annular wall (70) to tightly fit in the combining hole (50) of the rod member (5). The engage member (7) has a largest diameter smaller than or equal to the outer diameter of the rod member (5), and the outer diameter of the front combining hollow portion (56) is smaller than or equal to that of the rear non-circular portion (55) of the rod member (5) for convenience of combining with a screwdriver. <IMAGE>
