Abstract (en)
Corner flashing for covering corners of building elements that are led through a surface impacted by water, where the flashing or covering includes a water channel (1) and a front covering part (2) at an angle (9) thereto, and where the front covering part (2) includes a deformable section (4). The corner flashing can be made of zinc, and a pleated part constitutes the deformable section (4). The corner flashing may be prefabricated and used for different roof slopes by bending the water channel (1) by an existing offset (8). <IMAGE>
