Abstract (en)
[origin: WO03020256A1] The invention relates to the use of C2-substituted indane-1-one systems and to their physiologically compatible salts and physiologically functional derivatives for producing medicaments to promote weight loss in mammals and for the prophylaxis or treatment of obesity. The invention also relates to the use of compounds of formula (I), wherein the groups are defined as per the description, and to the physiologically compatible salts and physiologically functional derivatives of said compounds, for producing a medicament for the prophylaxis or treatment of obesity.
