Abstract (en)

[origin: WO03020686A2] The invention relates to a method for producing 4-amino-1-naphthol ethers which is characterized in that naphthol ethers are firstly produced from 1-naphthols, are subsequently transformed into corresponding 4-acetamino-1-naphthol ethers, whereupon the acyl group is then split off. The invention also concerns certain 4-acetamino-1-naphthol ethers.
