Abstract (en)
[origin: EP1428679A2] The book press machine has a pressing point with a pressing table (4) and moving pressing plate (5) to press the book (2), and an endless transporter belt (6), the conveying direction it which is transverse to the book spine. The knife edge (4a) in the pressing table forms a diversion point for the transporter belt. A pressing rail (21) holds the book cover down when the plate is opened.
