Abstract (en)
[origin: DE10104645A1] A wall mirror is mounted in a frame (14) and has a mirrored glass panel (22). A fined area of the glass is free of mirror coating (26) and functions as a flat surface display. This is coupled to electronic modules behind the mirror that process inputs from such as a video or DVD player. Loudspeakers (42) are built into the mirror.
