Abstract (en)  
The road finisher comprises a working component which is heated by a heating element (H). Heat is provided on the intermediate member which is located in the heating area between the heating element and the working component (101). The heating element is laminar, and a heating coil is provided which is a spiral heater around the laminar base. The heating element may be supplied with a three-phase current by a three-phase generator (115). The heating element has a length of about 0.9 to 1.2 m and a width of about 50 to 100 mm, and is designed for a power input between 500 and 1000 Watts, preferably 600 Watts.

Abstract (de)  
Bei einem Straßenfertiger (F) mit einer mittels eines elektrischen Heizelements (H) beheizten Arbeitskomponente, bei dem das Heizelement (H) wärmeübertragend an einem Heizbereich der Arbeitskomponente festgelegt ist, und wenigstens eine Heizwendel enthält, ist das Heizelement (H) flächig ausgebildet und die Heizwendel wenigstens ein spiralförmig um flächiges Trägermaterial (M) gewickelter Heizleiter (L), wobei die Umrissform des Trägermaterials (M) und/oder die Windungsdichte oder der Windungsverlauf des Heizleiters (L) an ein vorbestimmtes Heizbild im Heizbereich angepasst ist. <IMAGE>
