Abstract (en)

[origin: EP1432283A2] The hearing aid system consists of a left hearing aid unit (1) for the left ear and a right hearing aid unit (2) for the right ear. The hearing aid units each have at least one housing and a microphone system. Three sound inlet openings (6a-c,7a-c) in the housing are allocated to the microphone system. The sound inlet openings are arranged along a straight line (5a,b), whereby each straight line is directed to a straight forward view (3) of a hearing aid carrier (4).
