Abstract (en)
[origin: US7017290B2] A pressing iron having, from bottom to top, a heating soleplate, a body delimited by an envelope that contains a water reservoir, and a gripping handle connected to the body. The reservoir is provided with a vent at the rear of the iron and at the top of the reservoir, the iron is provided with an opening situated at the front of the iron above the reservoir, and the iron further has a tube connecting the vent to the opening.
