Abstract (en)
[origin: EP1434308A1] The terminal block system has at least one distance plate (15,16) arranged between terminal blocks (1a...2) of different designs whose dimensions are such that the tips (10) of a cross-connection element (8) fit into the receiving holes of a cross-connection channel (6,7) of at least one of the adjacent terminal blocks that fully covers the contours of the adjacent block.
