Abstract (en)

[origin: WO03034883A2] The invention relates to a wash basin (2) for rinsing or washing hair of the head, comprising an illuminating device (3) having a plurality of light projectors (5) for illuminating an inner region (14) of the wash basin (2). Said wash basin (2) consists of a light-permeable material (4), the light projectors (5) of the illuminating device (3) being arranged outside the wash basin (2) in such a way that at least one partial region (11) of an outer side (6) of the wash basin (2) can be subjected to light (12).
