Abstract (en)

[origin: WO03028829A1] A gaming machine having a housing formed as a rectangular box having a top, a pair of spaced parallel sidewalls, and backwall. The sidewall includes a lever handle . The gaming machine has a video display mounted to and supported by a front panel. The display mounted of the panel allows access to storage rearward thereof and allows mechanical reels to be placed adjacent thereto. The close relationship of the video display and reels allows a players to view both the video display and the reels within his or her field vision.
