Abstract (en)
[origin: WO03035409A1] The invention relates to an embossed film, in particular a hot-embossed film, comprising a removable transfer layer (7), arranged on a support film (1), whereby the transfer layer (7) comprises at least one colour layer (4), the apparent colour image of which changes depending on a viewing angle. The colour layer comprises coloured interference pigments with a metal core. The invention further relates to a security document (8) produced by using said embossed film.
