Abstract (en)
[origin: EP1437800A1] The contacts (4,5) held by the insulator (1), are linked to the conductor (6C) of the flat cable (6) accommodated in the recess (2A) of the insulator (2). The projection (6A) of the cable is held by clamps (7A,7B) contacting the ribs of the insulator (3). The clamp and the rib of insulator (3) are made to contact using insulators (1,2) while connecting the cable.
