Abstract (en)
[origin: WO03037627A2] The invention relates to a draw-in tip to be fastened to the front end of a web of material, especially a web of paper, to be drawn in. Said draw-in tip can be optionally fastened to a device for drawing in the web of material to be printed by means of at least one coupling device. The draw-in tip has at least two sections that are disposed side by side and that can be detachably interlinked at least partially along a contact zone.
[origin: WO03037627A2] The invention relates to a draw-in tip (01) to be fastened to the front end of a web of material (08), especially a web of paper, to be drawn in. Said draw-in tip can be optionally fastened to a device for drawing in the web of material to be printed by means of at least one coupling device (04, 06). The draw-in tip has at least two sections (02, 03) that are disposed side by side and that can be detachably interlinked at least partially along a contact zone.
