Abstract (en)
[origin: EP1439127A2] The collapsible carton has at least five sides (21 -28) which have end flaps attached to their bases. Two of the flaps (33, 37) which are attached to diametrically opposite sides (23, 27) interlock and are held under tension, due to the resilience of the card. The other flaps (31, 32, 34 - 36, 38) fit under the two large flaps. An Independent claim is included for a blank for making the carton.
