Abstract (en)
Packaging for a food product such as a prepared or pre-cooked dish comprising a receptacle and domed cover, each consisting of a rigid to semi-rigid single layer of a heat-sealable polyolefin, sealed one to another at their outer edges by a continuous, uniform layer of a sealant lacquer and separable by peeling with a constant and regular force. The packaging can be used in a microwave oven and the seal breaks at least partially under increased internal pressure from the cooking.

Abstract (fr)
Le conditionnement selon l'invention destiné à contenir un produit alimentaire comprend un ravier (1) et un dôme (3) formés chacun à partir d'une feuille monocouche rigide polyoléfinique, ces feuilles (7, 8) étant scellées le long de leurs rebords périphériques (5, 6) au moyen d'une laque scellante définissant un joint de scellage (4), et étant séparables de manière pelable. <IMAGE>
