Abstract (en)  
[origin: EP1440710A1] The training apparatus has a curved panel (1) with a rectangular base shape. The curvature includes an angle of at least thirty degrees. The curvature can be constant and the panel can have a consistent thickness. The curvature can define an angle of between thirty and one hundred and eighty degrees, preferably sixty to a hundred degrees. The length of the panel long the curved edge is between sixty and one hundred and twenty centimeters.
