Abstract (en)
[origin: DE10128685A1] The invention relates to a self-adhesive matrix plaster containing an active ingredient and based on polyurethane gels, said plaster being used to release active ingredients into the skin in a controlled manner. The active ingredient is present in the matrix and penetration enhancers are added to said matrix.
[origin: DE10128685A1] A self-adhesive sticking plaster matrix material comprises active material and a penetration enhancer (PE) which is added to the matrix.
