Abstract (en)

[origin: WO03031565A2] A system and method for analysis of genomic sequence data utilizing genomic sequence similarity assessment in compressed data space, the method including: obtaining genomic data, preprocessing genomic data into preprocessed genomic data, compressing at least part of the preprocessed genomic data, storing compressed preprocessed genomic data, indexing compressed preprocessed genomic data, and analyzing genomic data, based at least in part on the indexing, the analyzing also including assessing genomic sequence similarity, based at least in part on the indexing.
