Abstract (en)
[origin: WO03040796A1] A tilting mirror, in particular as mirror facet (2) for a facet mirror (1) comprising a plurality of these tilting mirrors (2), is provided with a mirror surface (5) and a bearing device. The mirror surface (5) is constructed as the surface in a recess (4) in a spherical member (3), the spherical member (3) being mounted in the bearing device.
