Abstract (en)

[origin: EP1442767A1] The suit (100) can be connected to an air supply unit via a supply line (11) and features a hood-like head section (1), which is closed at the front by a visor-like window (3). The hood comprises an inner hood and an outer hood, which are connected to each other at least on the edge side. The inner hood side facing the window features several air exit openings. The air supply unit comprises a blower (102) and a filter (103).
