Abstract (en)
[origin: EP1442880A1] The press has at least one printing mechanism, a sheet conveyor module and a rest for stacking the paper. The sheets can be taken from the sheet conveyor module (12) onto a second level (18), higher than the first level, with a higher rest (5) to increase the stacking space. The sheet conveyor module includes a conveyor (13) after the first sheet guide cylinder (14).
