Abstract (en)

[origin: EP1443071A1] The present invention relates to a method of manufacturing a laminated foam article, as well as to a laminated foam article obtained by using such a method. The present invention furthermore relates to the use of such a foam article. One aspect of the present invention is to provide a method of manufacturing a laminated foam article, which foam article is composed of at least two durably bonded-together layers, the outer layer of which can be provided in any desired colour.
