Abstract (en)

Cigarette paper for hand-rolled cigarettes includes a calcium carbonate filler with a mean particle size above 3 μ m. An independent claim is also included for a book of cigarette papers as above.

Abstract (fr)

L'invention concerne un papier à cigarettes de type à rouler chargé en carbonate de calcium, caractérisé en ce qu'il présente une opacité inférieure à 70% et en ce que le carbonate de calcium présente une taille moyenne de particules qui est supérieure à 3 microns.
