Abstract (en)

[origin: WO03042044A1] Packaging assembly comprising a dish-shaped container (2) for holding products (3) which container (2) enclosed on all sides by film material. The dish-shaped container (2) is smaller than the space bounded by the film material, and for accurate positioning of the container (2) relative to the film material a number of dots of adhesive are applied to the web (9) of film material, on which dots the container (2) is placed.

[origin: WO03042044A1] Packaging assembly comprising a dish-shaped container 2 for holding products 3 which container 2 enclosed on all sides by film material. The dish-shaped container 2 is smaller than the space bounded by the film material, and for accurate positioning of the container 2 relative to the film material a number of dots of adhesive are applied to the web 9 of film material, on which dots the container 2 is placed.
