Abstract (en)

[origin: WO03038640A1] A method and system of adding functionality to an Internet browser interface (20). In one embodiment of the present invention, the added functionality may facilitate automatic login to a web site using an Internet browser (72). In another embodiment, the added functionality may enable the user to perform various tasks using the Internet browser (72) such as, by way of non-limiting example, performing various tasks required to navigate one or more web pages, or to retrieve information desired by the user from one or more web pages or web sites.
