Abstract (en)
[origin: WO03036594A1] An image-recordable liner comprising a support, a release layer which is fixed to one surface of the support and comprises a release agent composition, and a recording layer which consists of a layer comprising a resin fixed to the other surface of the support and receives an ink or a toner for recording an image; and an adhesive sheet structure comprising a substrate, at least one adhesive layer which is fixed to one surface of the substrate and contains a self-adherent polymer, and the above image-recordable liner, which is laminated on the adhesive layer with the release layer facing to the adhesive layer.
