Abstract (en)
A portable structure (102, 1102) for providing temporary protection for at least one person from environmental conditions, comprising: a sheet (105); a mounting block (103); a plurality of support arms (104, 1104) secured to the mounting block and arranged to extend outwards from the mounting block to support the sheet when in an erected condition. A plurality of the support arms are arranged to fold away from the erect condition into a storage condition. <??>The mounting block comprises: a first part (301, 1201) to which a number of the support arms are connected; a second part (302, 1202) to which a number of the support arms are connected; and hinging means (303, 1221 and 1222) connecting the first part to the second part, such that the structure is erected by a relative movement of the first and second parts about the hinging means. <IMAGE>
