Abstract (en)

[origin: EP1445844A1] The device has an elongated receiving unit (158) to receive section of cables or each cable. The receiving unit is designed to be integrated to a switch box. A clamping hoop (160) is fastened around the receiving unit and each cable, in a manner, to integrate each cable with the receiving unit. The receiving unit is equipped with a stop of the clamping hoop and lateral ribs. An independent claim is also included for an equipment to close or to protect from sun including a switch box.
