Abstract (en)  
[origin: EP1447486A2] Runoff (10), especially for connecting wash basins, comprises a siphon-like deviation as an odor seal arranged between an inlet (11) and an outlet (12). The height of the inlet relative to the outlet can be adjusted. Preferred Features: Several housing parts (15, 17, 18) provided for the height adjustment can be rotated and/or displaced relative to each other. The housing parts are made of plastic.
