Abstract (en)
[origin: WO03047410A1] The invention relates to a hygienic paper dispenser that stores dry toilet paper and dispenses moistened hygienic paper. To this end, the dispenser contains a housing, roll holders for holding the hygienic paper, a moistening unit that is equipped with a liquid reservoir, a moistening roll, and at least one liquid tank, which communicate with one another, and a dispensing unit comprising a hygienic paper advancing roll that is in contact with the moistening roll with the hygienic paper being situated therebetween. The dispenser can be divided into a base housing and an insertion part. The inventive dispenser is advantageous in that commercially available toilet paper is stored, and moistened hygienic paper is dispensed with a defined length or with any length, and in that the dispenser has a simple design and is easy to operate.
