Abstract (en)  
[origin: WO03034971A2] The invention belongs to the area the physiotherapy devices used in health care, cosmetic treatment, sports establishments, hotels and home. The purpose of the device is to enable the use of hydrotherapy and heat therapy variations and a vibromassage device in the same unit and automatic disinfection of tubes and surfaces on contact with the customer's skin. To achieve this purpose the device includes a disinfection devices (15), automatic disinfection system (24), pre-programmed control modules (16, 17, 18, 27), time recorder for various functions of the device (31). The device has three sections, the lower section contains a 80-200 litre of hydrotherapy bath (1) with a hand shower (9), thermal mixer (10), underwater hand massage device (8); the middle section, adjustable to various heights between 42-80 cm, has a vibromassage table (20); the upper section has a four-program massage shower with 16 nozzles (24), a steam screen (26) that can be opened, manually and automatically controllable aroma device (19) and infrared radiator (25).
