Abstract (en)

[origin: DE10159378C1] The invention relates to a computer work table (1) comprising a table top (7), which is mounted on an underframe (2) and provided with an opening, a keyboard drawer (11), which can be pulled out towards the user as well as a flat screen (13), which is arranged below the table top (7) and provided with a screen holder (12). By sliding said keyboard drawer (11), the screen holder (12), supporting said flat screen (13), can be displaced in the horizontal direction along guiding elements (16) between a forward working position, which is inclined in relation to the viewing direction of the user, and a backward initial position.
