Abstract (en)
[origin: WO03047490A2] It's about a waterproof protective cover for injured parts of the human body from any kind of moisture/humidity, consisting of a wide glove, without fingers, made of waterproof material latex of all colors, which covers the injured limbs the hand-cover starting from the fingers to the top of the arm and the foot-cover from the toes to the thigh. The cover has a narrow, elastic opening section with an extra shield inside, that fits onto the limb arm or thigh, accordingly in a way that is ensures absolute dryness of the limb from any kind of moisture/humidity. It is also rough at the palm and foot so that the slipping effect is reduced.
