Abstract (en)

[origin: WO03051383A2] The invention relates to the use of HMGB and/or a nucleic acid that codes therefor and/or an interaction partner of HMGB that is in particular natural and/or a nucleic acid that codes therefor as a target molecule for the development and/or production of a medicament for the treatment and/or prevention of diseases of the endometrium and/or for the development and/or production of a diagnostic agent for diagnosing diseases of the endometrium.
