Abstract (en)

[origin: WO03051745A1] Packaging (1) for a packed heatable material, in particular microwavable, comprising at least one sealing region (5), which opens on exceeding a given internal pressure. The or each such sealing region comprises at least one pre-determined flow section (7, 9) with a restriction (9) for the packaging contents and a point (7), facing the interior of the packaging. A channel-like triangular or stellate perforation or stamping serves as restriction.
