Abstract (en)

[origin: EP1455319A2] An electric hand tool theft prevention unit has control electronics (8) with transmit/receive unit (10) and memory (12) containing an authorization code that is compared at intervals, and on power up or battery insertion, optionally after a number of switch presses, with a code received in response to a request to a portable external (4) transmitter/receiver (16) and processed to release or lock the tool.
