Abstract (en)

[origin: EP1457333A2] The system has a screen roller (03) and at least one form roller (04) to ink a form cylinder (06). The circumference of the form cylinder is an integer multiple of the circumference of the form roller. The form roller is assigned to a calender cylinder (05) to guide movement in the axial direction. The form roller and the calender cylinder have the same diameter.
