Abstract (en)

The invention provides a system for storing and deploying a soft shelter for protection against NBC warfare, including a two-part cabinet having a storing part (6) and a door part (8), a soft shelter (12) made of a foldable skin defining a protected space upon being unfolded, the skin being attached at one end to the storing part or indirectly to the door part, wherein upon the opening or displacement of the door part, the foldable skin is expandable to form the protected space. A method for storing and immediate deployment of an NBC protection system is also provided. <IMAGE>
