Abstract (en)

[origin: EP1457845A1] The pushbutton has a body (10) mounted on a tube (1). The tube has a groove (5) for receiving a water-tight joint (6). The body has an internal lower cylindrical boring (13) cooperating with the joint terminated by a tapered part (14), and an upper part with an internal tapping (12) cooperating with external threading of a head (16).
