Abstract (en)
[origin: WO03055916A2] The invention relates to a conjugate comprising an adiponectin polypeptide, and a first non-polypeptide moiety covalently attached to the adiponectin polypeptide, wherein the adiponectin polypeptide comprises an amino acid residue having an attachment group for said first non-polypeptide moiety, wherein said amino acid residue has been introduced in a position that in the parent adiponectin is occupied by a surface exposed amino acid residue.
