Abstract (en)
[origin: WO03054892A2] The invention relates to a spring clip (17) comprising a clamping arrangement (1) which can clamp said spring clip (17) on a surge diverter (2) on a side thereof. Said spring clip comprises at least one spring arm (3) with a thermal protection device (4) which is secured to the inside of the spring arm (3) and contains a fusible element (5). The thermal protection device (4) is fixed to the spring clip (17) enabling a low melting point to be selected for the fusible element (5). The invention also relates to a surge diverter arrangement (2) having a spring slip (17). The invention further relates to a method for producing said arrangement.
