Abstract (en)

[origin: EP1459905A1] The marker has a ribbon (1) including an end (1a) fixed on the back (11a) of a bounded book (12) and another loose end that is placed between the pages of the book. The loose end marks a particular page. The fixed end of the ribbon is placed between the back of a cover (11) and body of the book to form an integral part of the bound book. The ribbon is placed under a protective film in a removable way, on the back of the book. An independent claim is also included for a process of setting up a page marker.
